## WHAT TO EXPECT

- Structured & Unstructured musical play experiences
- Auditory & Tactile Sensory Exploration
- Opportunities for social communication & peer play development
- Connection with other Parents & Caregivers

## WHY PLAY?

As a parent being a part of a community activity can help you feel less alone as you are amongst peers. Children will have fun, make friends and grow in their social skills.

## WHY MUSIC THERAPY?

Research has shown that music interventions enhance the cognitive, emotional, social, and sensory skill development for young children. The engaging nature and accessibility of music often elicits positive responses of individuals with ASD.
